

Webhunt 101

What is a webhunt? This workshop will teach you the basics of webhunts and their many uses for enhancing the curriculum through the incorporation of technology in the elementary classroom. Each participant will learn to create and design their own webhunt for use in their classroom.

Program details:

Presented by: Michele Bastian

When:

Where: Westwood Elementary TPC Lab, 11999 Martin Rd., Warren MI 48093

Fee: Free to all Warren Woods employees

Required Materials: Flash Drive or writable CD for saving projects

This program is open to all interested participants and may be used toward district professional development hours.

Looking to get students excited about learning? Here are some noteworthy quotes made by students after using a webhunt for a research based science project:

“I never knew learning about science could be fun!” *Nicole Mazur, 5th grade*

“I can’t wait to try this at home!” *Kaitlin Barber, 5th grade*

If you are looking for an interesting and easy way to incorporate technology into the curriculum webhunts are for you!!
